### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### In the Claims:

In line 3 of claim 12, "b)" has been changed to ---a)---

Claims 33-42 have been canceled.

2. The following is an examiner's statement of reasons for allowance: Reasons for allowance of claims 26-32 are given in the previous office action. Outstanding objections and rejections have been overcome and are withdrawn. With respect to claims 11 and 12, the prior art of record fails to suggest a motivation for removing wax consisting of C12 and higher hydrocarbons, or removing wax from a gas consisting primarily of non-condensable air, nitrogen or argon, in combination with the recited separation steps a)-d).

Note that claim 12 has been amended to correct a typographical copying error.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Election/Restrictions***

3. Applicant's election of Group I, claims 1-32 in the reply filed on July 22, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
4. This application is in condition for allowance except for the presence of claims 33-42 to an invention non-elected without traverse. Accordingly, claims 33-42 have been cancelled.

***Drawings***

5. The drawings were received on July 22, 2005. These drawings are approved.
6. Applicant is invited to submit a replacement sheet for Figure 1 because many of the features are unclear due to faxing, copying or scanning.

***Conclusion***
